By Sebastian Radics

What a great experience joining [Netlight's](#) awesome EDGE conference . Networking, high communicative engagement and a joyful environment. Congratulations to Netlight for hosting a great event and making it a highlight for the presenters too.

It was inspiring and challenging to prepare it and present in front you smart Netlighters. Great questions and conversations included. Let's continue the journey applying Scrumban.

In addition to the [recorded presentation](#) presented at the Berlin Scrum Meetup earlier this year next you can access the slides for the presentation held at the 11.10.2015 at the conference (having additional slides for #NoEstimates and GetScrumban 😊)

[ScrumBan \[R\]Evolution – Are #NoEstimate and #NoSprints your next steps](#) from **[Sebastian Radics](#)**
